**Minimum Noise, Maximum Cooling, Affordable Silence**

**City of Industry, CA – June 18, 2010**

**ENERMAX is pleased to announce the launch of a new fan series: T.B.SILENCE.**

Great fans do not have to be expensive or come with price-increasing fan controls like PWM or manual/auto speed functions. The new T.B.SILENCE series complement ENERMAX’ current fan line-up by offering affordable silence without unnecessary speed controls while maintaining performance with ENERMAX’ patented Twister Bearing Technology. “Twister is a magnetic bearing type, which does not suffer from abrasion like mechanical bearings such as Sleeve or Ball-Bearings and has a longer lifetime of more than 100K hours.”

The result is acoustic noise ranging from an excellent 15 dBA to an unbelievable 11 dBA on the 120mm model. T.B.SILENCE offers excellent cooling at an unbeatable price/performance ratio.

Series		T.B.SILENCE		
Size (mm)		80	120	140
Item		UCTB8	UCTB12	UCTB14
Frame	Type	Halo		Massive
	Color	Black/Silver		
Blades	Type	BATWING		TURBINE
	Color	Transparent Acryl		
Speed (rpm)		1600	900	750
Noise (dBA)		15	11	15
Airflow	m <sup>3</sup> /h	47.47	71.54	77.13
MSRP	US\$	9	12	16
