**Warranty Upgrade for REVOLUTION85+ and GALAXY EVO**

City of Industry, CA – January 15, 2010

**ENERMAX is pleased to announce the upgrade of its current 3 year warranty on REVOLUTION85+ and GALAXY EVO PSU series' to 5 years.**

The warranty upgrade is not only valid for newly sold units, but retroactively for all units sold. Owner of these models can simply consider their units to have a 5 year warranty. No additional registration or action is required.

“This warranty upgrade is part of our ongoing 20-year anniversary campaign throughout 2010 to celebrate our achievements during this period and to give back to our valued customers a part of the trust and appreciation, they have shown to us in these 20 years”, Steven Su, founder & president of ENERMAX, elaborates. “When we started 20 years ago, we had yet to establish ourselves in the industry by the innovative energy we stand for today. Our two flagship PSU series' exemplify our spirit and thus we wanted to match their warranty with what they stand for.”

**About REVOLUTION85+ & GALAXY EVO**

Their AHD<sup>2</sup>-topology was the first to utilize interleave + synchronous rectification and set a new reference throughout the PSU industry. Besides this technological leap and their outstanding performance, won by numerous awards, they were the first PSU's ever, to win even industrial design awards for their look.

Russian overclocking teams ModLabs.net and TopMods.net set up a new world record for AMD CPU's with liquid nitrogen. They reached an outstanding score of **7040.69MHz** – powered by a high-performance and extremely stable REVOLUTION85+ 1250W: [http://www.youtube.com/watch?v=yU9w3aFuOcQ&feature=player\\_embedded](http://www.youtube.com/watch?v=yU9w3aFuOcQ&feature=player_embedded)
