STARAY
Light Up the Cooling

City of Industry, CA – July 23, 2009

ENERMAX is proud to announce its latest ATX mid tower case “STARAY”, featuring one of the renowned APOLLISH LED fan.

STARAY has all features made up a modern case such as a tool-free design, rear liquid cooling holes, HD Audio Azalia AC97 support, front 2x USB, motherboard stand-off screws, micro dust filters in front, and a PSU support truss.

Four fan slots (1 in front and rear, two on the side) plus a fully meshed front allow maximum cooling and better airflow. STARAY ships with customized ENERMAX APOLLISH LED fan(s), which outshine any other LED fans in the market. The patented 15 LED structure dwarfs the brightness of all other LED fans.

STARAY has integrated a front control button that turns its LEDs not only on and off, but showcase a **3-LED beam spin with a lighthouse effect.**
